(54) Title: PERFORMING A COMPETITION BETWEEN TEAMS BY MEANS OF MODULAR UNITS

(57) Abstract: This invention relates to a method of performing a competition between teams by means of at least two sets of modular units (20A, 20B; 21A, 21B; 22A, 22B). The invention further relates to a modular unit for performing a competition between teams. Said method comprises the steps of connecting a first set of modular units (20A, 21A, 22A) to a second set of modular units (20B, 21B, 22B), wherein each set comprises at least one modular unit (10); determining which first modular unit in the first set is connected to which second modular unit or units in the second set; determining which third modular unit in the second set is connected to which fourth modular unit or units in the second set; determining a set of information items for at least one modular unit, wherein each information item individually relates to a specific modular unit in said sets (20A, 20B; 21A, 21B; 22A, 22B); and wherein said set of information items represents competition-related information, and wherein said set of information items depends on the way in which said modular units are located relative to one another, a property for each modular unit and of which first competition performed; distributing the set of information items to the corresponding modular units; and presenting said set of information items on the modular units. A modular unit, when used in conjunction with more modular units, can thus provide a freely selectable field of any form or shape for performing a competition, such as sports or games.

INTERNATIONAL SEARCH REPORT

PCT/03/03241

A. CLASSIFICATION OF SUBJECT MATTER
 IPC 7 A63F13/12 A63F3/02

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 A63F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	WO 01 65358 A (ACCLIM ENTERTAINMENT INC) 7 September 2001 (2001-09-07) page 7, line 9 -page 32, line 21; figures ---	5-9
X	US 4 372 558 A (KOBAYASHI KAZUTSUGU ET AL) 8 February 1983 (1983-02-08) column 2, line 62 -column 4, line 25; figures -----	5, 7-9

☐ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *Z* document member of the same patent family

INTERNATIONAL SEARCH REPORT

T/IB 03/03241

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☒ Claims Nos.: 1-6
because they relate to subject matter not required to be searched by this Authority, namely:
Claims 1-5: Rule 39.1(iii) PCT - Scheme, rules and method for playing games
Claim 6: Rule 39.1(vi) PCT - Program for computers
2. ☐ Claims Nos.:
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this International application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.
